

# Project OSCARS

## Open call – cascading grant

### **OSCARS** – Open Science Clusters' Action for Research and Society

- Brings together ESFRI and other research infrastructures within five "**Science Clusters**" (Humanities and Social Sciences, Life Sciences, Environmental Sciences, Photon and Neutron Science, Astronomy, Nuclear and Particle Physics).

### Open call – cascading grant

- **Aim** – development of new, innovative Open Science projects, that will drive the uptake of FAIR-data-intensive research throughout the European Research Area.

### 2 calls

- **March 2024** (from March 15, open for 60 days)
- November 2024
- Total funding ca 16 million Eur
- Each grant between **100 000 to 250 000 Eur** (lump sum – easy administration)
- Project length: 12 – 24 months

### Detailed information

- **Info webinar for launch of the 1<sup>st</sup> call is on 15<sup>th</sup> March, [REGISTRATION here!](#)**
