Developing data literacies: *personal insights from practice*

Tomáš Marek, *Department of Information and Library Studies, FF MUNI Brno*

- ↳ Start (*very*) early.
- ↳ Think of *dataviz* as of a versatile tool.
- ↳ Embrace the subjective nature of *dataviz*.
- ↳ Leverage the *productive failure* strategy.
- ↳ Take advantage of a '*bad guy*' scenario.
- ↳ Promote skills in communicating uncertainty.
- ↳ Push aesthetics for legibility.
- ↳ Teach the basics of visual cognition.
- ↳ Advertise user-testing and iterative design.

Thank you.
